

# STEEL TRACKS

## REQUIREMENTS

## FEATURES & BENEFITS

Steel Tracks: Comes in sets of 2. On some tracks/loader combination the installation of additional components may be required. If so these components are included in the track package.

- Improves traction and flotation in soft, muddy and loose conditions.
- Open bar design utilises the tire to provide maximum traction and flotation.
- The special design protects the tire from wear and damage.
- There is a built-in system for length adjustments for optimum track adjustment to account for tire and track wear.
- After initial installation, steel tracks can be reinstalled easily in less than 30 minutes or removed in less than 10 minutes.

**IMPORTANT:** Only pneumatic tires and tires with Superflex formula poly fill manufactured by Arnco are permitted for use inside steel tracks. Original Bobcat® factory poly-filled tires meet this requirement. All other tyres including Bobcat® Solid Tires (Twin Flex, Smooth Flex, Smooth Solid, etc.) are not approved. Please note that the use of non-approved tyres will void the loader and track warranties.

**Description:** Improve performance in rough, rocky, and muddy conditions with steel tracks. Designed for Bobcat® loaders, steel tracks provide better flotation and reduced ground pressure when operating in tough environments. When working in soft and loose conditions, steel tracks improve traction.

## TECHNICAL SPECIFICATIONS

Description	Part Number	Tyre Size	Number of Pads	Machine Width with Tracks (mm)	Wheel Spacers (5 cm)	Lift Arm Stop	Weight (kg)	Control Kit Required	First Use Installation Time
Steel Tracks Package, 500 Series	7222581	10-16.5	34	-	included	-	450	No	0.20
Steel Tracks Package, S630, S650	7178955	12-16.5	38	2007	included	not required	543	No	0.20
Steel Tracks Package, S770	7191754	12-16.5	38	2007	included	not required	545	No	0.20
Steel Tracks Package, S850	7191757	14-17.5	42	2184	included	not required	619	No	0.20
